Cargolux launched a third scheduled flight to Zhengzhou, China.

The airline introduced the first two flights departing from Luxembourg in June.

Cargolux will double its Zhengzhou service to six weekly flights by the end of 2014. Zhengzhou is located in central China with daily road feeder services to coastal cities such as Beijing and Shanghai, and reaches far inland to cities such as Xi'an, Wuhan, Chengdu and Chongqing.

The stepping up of regular air cargo services between Luxembourg and Zhengzhou is part of Cargolux's dual-hub strategy centered on Luxembourg's Findel Airport and on Zhengzhou's Xinzhen International Airport.
