Fly Romania (X5, **Bucharest Otopeni**) has filed for insolvency with a Bucharest court. A filing seen by ch-aviation has now called for all creditors to lodge claims with the airline's interim trustee, Dinu Urse Associates, with the deadline for submissions set for October 30.

Doubts about the **Ten Airways** (X5, **Bucharest Baneasa**) subsidiary's long-term viability first surfaced in June when poor load-factors forced it to dramatically scale down its flights, just one month after it launched operations.

During its brief operational period, FlyRomania had offered budget flights between **Bucharest Otopeni**, **Tulcea**, and **Timisoara** domestically as well as flights to destinations in Italy, Spain, Germany and Turkey.
